

učni list za 8. razred

1. Bolezni in bolečine. Pod sličicami napiši prevod v slovenščino.

a foot pain - a sore throat - a stomachache - a fever - a headache -
an earache - a toothache - a backache

Uporabljamo končnico – **ACHE** da označimo bolečino.

Ko srečamo nekoga, ki je vidno bolan ali se mu nekaj hudega dogaja vprašamo:
WHAT'S THE MATTER? (kaj se dogaja- kaj se ti dogaja?) ali **HOW DO YOU FEEL?**(kako se počutiš?)

Na to vprašanje odgovorimo z **HAVE** ali **FEEL** kot v primerih.

I **have** a headache

We **have** a stomachache

She **has** fever

My father **has** a backache

I **feel** sick

She **feels** terrible

You don't **feel** well

How do you **feel**?

Complete the following dialogues with feel or have. Izpolni z **FEEL** ali **HAVE**
